

MEMBER UPDATE SEPTEMBER 26, 2020

Thank you to everyone who is staying with us as we pivot, navigate and persevere through yet another challenging time. As we all continue to struggle through COVID-19, the Stevens Point Area YMCA experienced a significant setback last week. Thankfully, we had minimal positive cases and only among our staff, who are all recovering very well. Unfortunately, due to close contacts throughout departments, we were forced into a partial shutdown.

While we find this to be a positive outcome, the situation was still devastating to our operations and of course, to our members, employees and the community. As we look ahead, we need everyone's support so that we can **KEEP OUR YMCA OPEN** to serve YOU and the needs of our community!

HERE IS WHAT YOU NEED TO DO:

WEAR A MASK* - We are following the mandate set forth by local and state officials which means that you **MUST WEAR A MASK** at all times you are in our facility (ONLY EXCEPTIONS is if you meet the mask mandate exemptions) This means **WEAR IT** when you enter/exit the facility and **WEAR IT** moving between or cleaning equipment in the Wellness Center, to and from fitness classes, to and from the locker rooms, and so on. It is for everyone's safety and the honesty value really matters here!

STAY APART 6 FEET OR MORE - Everyone must stay at least 6 feet from each other at all times. We have done our best to set up all aspects of our operations to meet this criterion, but we cannot do it for you; you have to take personal responsibility for it!

CLEAN UP AFTER YOURSELF - Please continue to wash and/or sanitize your hands regularly and clean up after yourself when using our YMCA. In the Wellness Center, after using equipment in fitness classes, or any other location, **PLEASE** use the cleaning supplies provided to clean what you have used. It is just a nice way of telling the next person that you care about their health and safety!

**Please Note: On 9/22/20, Governor Evers issued an updated executive health order extending the mask mandate through November 21 to slow rates of disease activity.*
