PERSONAL TRAINING

Our nationally-certified Personal Trainers are excited to help you take your fitness to a whole new level. No matter what your current ability, we will help you set some challenging goals and give you the training prescription to attain them. Do not let a physical limitation hold you back. We have trainers equipped to help those with special concerns.

30-MINUTE PERSONAL TRAINING CONSULT

All members receive a free 30-minute consultation. Custom packages available upon request.

Location: Personal Training Office

BODY COMPOSITION (AGES 10 YEARS & UP)

The scale is not the only tool to measure your fitness, but it is an actual measure of your health. Body composition measures the percentage of fat compared to fat-free mass (muscle, bone, and water) in your body. If you lose 5 pounds of fat and gain 5 pounds of muscle you will lose inches, burn fat, and raise metabolism. Get your body composition numbers and reveal whether any adjustments to your exercise program or eating habits need to be made to reach your health and wellness related goals.

Personal Training Office. **By appointment only**
