ABOUT US

The Camp Glacier Hollow experience is so much more than summer camp! Campers will learn new skills, gain independence, and make lifelong memories, all while building friendships that will last a lifetime. At Camp Glacier Hollow, campers will develop resilience through adventures, build meaningful relationships with exceptional role models, and gain confidence through new experiences. Throughout our programs, our staff focus on instilling youth with the core values of the YMCA: caring, honesty, respect, and responsibility.

We are located near Stevens Point, Wisconsin. Nestled on 108 acres of rolling woods and beautiful, spring fed Lake Elaine, it is the perfect setting to provide your camper with an unforgettable summer experience!

Our property has been a camp pillar for nearly 100 years by offering a variety of camp programming. For the past 25 years, Camp Glacier Hollow has been home to camp operations for the Stevens Point Area YMCA. As our property expands and our offerings increase, we never lose sight of our goal: to help campers experience the magic of summer camp! Today, as we grow, we serve nearly 100 campers each week, from multiple states, with Camp Staff coming from many countries. Our international staff provide a fantastic opportunity for our campers to experience new cultures and learn new things while expanding their world view.

ABOUT OUR TEAM

Each staff member is carefully selected after a rigorous interview process based on their proven abilities working with children and their desire to support our mission. All staff members must demonstrate exceptional character and undergo extensive screening including a national sex offender database check and criminal background checks. Staff are certified in CPR, First Aid, and Lifeguarding by the American Red Cross. Pre-camp training includes outdoor skills, activity facilitation, managing group dynamics, safety and health training, child development, and more. Our staff is made up of veteran campers who have progressed through the entire Camp Glacier Hollow program, certified international staff from all over the world, and college students aspiring to work with youth as a career. We believe in building a diverse, skilled, ethical, and passionate staff to provide the best experience for our campers.

Our Camp Leadership Team is comprised of our on-site, year round Camp Director, along with year round support from our YMCA leadership team, and seasonal staff chosen for their unique skill sets and experiences. Those leaders join our team with numerous years of camp experience from inside and outside of the YMCA, a variety of ongoing training, conferences, and continuing education. They help strengthen the fabric of our camp, offering fun, safe, and educational opportunities to every Camper and Staff member.

What is ACA?

The American Camp Association is a community of camp professionals who, for more than 100 years, have joined together to share knowledge and experience to ensure high-quality camp programs for children, youth, and adults. ACA works to preserve, promote, and improve the camp experience. Our association is dedicated to helping our members and all camps provide:

- Camp communities committed to a safe, nurturing environment
- Caring, competent adult role models
- Healthy, developmentally appropriate experiences
- Service to the community and the natural world
- Opportunities for leadership and personal growth
- Discovery, experiential education, and learning opportunities
- Excellence and continuous quality improvement

“At YMCA Camp Glacier Hollow, we’ve undergone a rigorous peer review process and met the high standards set by the American Camp Association. This accreditation solidifies our dedication to ensuring the best for our campers.” Ryan Zietlow, President/CEO of the Stevens Point Area YMCA

Why does this matter?

Fun And Safety — ACA Camps Set the Standard ACA Accreditation means that the camp you are considering for your child cares enough to undergo a thorough (up to 290 standards) review of its operation — from staff qualifications and training to emergency management. American Camp Association® collaborates with experts from the American Academy of Pediatrics, the American Red Cross, and other youth-serving agencies to assure that current practices at the camp reflect the most up-to-date, research-based standards in camp operation. Camps and ACA form a partnership that promotes summers of growth and fun in an environment committed to safety.
